Report of Forestry Commission.

The following is a brief report of the work done by the Forestry Commission in coöperation with the U. S. Department of Agriculture, during the past season in accordance with the terms of an agreement entered into with you and dated May 6, 1918.

OBJECT OF UNDERTAKING.

This project was undertaken as the first step in preventing the spread of the white pine blister rust disease, which had already been located in your town. The value of the white pine was found to warrant expenditure for its protection after examination, and it was determined in agreement with your board to destroy all possible currant and gooseberry bushes over a certain specified area which was important on account of its pine growth.

RESULTS ACCOMPLISHED.

On the attached map is shown the area from which currant and gooseberry bushes were removed. This area was systematically covered by a crew of men working back and forth over the area in strips running near together, and currant and gooseberry bushes were removed. A summary of expenditures and results is found in the following table:

School Report

The number of pupils enumerated by the truant officer between the ages of five and sixteen is 115.

We regret that we could not retain all of our teachers throughout the school year as their services has brought such good results.

Good progress has been made in all of our schools considering how our schools have been broken up by influenza.

There has been a new building erected at the Crawley's school to comply with the requirements of the Department of Public Instruction.

We have received from the state this year 558.75 for average attendance.

We are notified by the Department of Public Instruction that there is a bill at the present time before the Committee on Education in the House of Representatives which reorganizes the whole system of raising school money and apportionment of state aid, and suggests that we delay our annual school meeting as late as possible in order to follow the new regulations if this bill becomes a law. Therefore, our usual recommendations may not meet the requirements of the law and may have to be revised at our next school meeting.

ROLL OF HONOR.
